Password guessing (abbr. PG-ing and/or variants thereof) is a form of security hacking involving the process of stealing passwords from data that has been stored in or transmitted by a computer system. A common approach is to try guesses repeatedly for the password and check them against an available cryptographic hash of the password, which is known as brute-forcing. Motives toward password ...

We've created the software shown here with every detail in mind, which is why you will find unique security features so you do not have to worry about a banned account or a game block.

Note that Roblox does not have a feature that allows us to revert an individual account to a previous state, but we still work to recover what we can to the best of our ability. For more information and to get the process started, contact Customer Service. Note: We require notification within 30 days of the account being compromised.

Step 1, Try logging in with your password. If your password isn't being accepted, make sure you're using proper capitalization when necessary (and that the Caps Lock key is not on). Make sure to do a complete malware scan and remove all potential threats from your computer. Accounts are often hacked due to downloading bad software or browser extensions. If you're not sure how to fully scan for ...Step 2, Go to
